

LASER WELDING HANDHELD

G3 Laser Welding Torch

-  Lighter weight
-  Comfortable grip
-  Built-in wire feeder switch

NEVER COMPROMISE ON QUALITY

TRM[®]

Key Features of the G3 Laser Welding Torch:

water-cooled laser welding torch with ergonomic design, higher safety and reliability, and can **meet the requirements of high power and long-term laser output** .

TRM water-cooled handheld laser welding

Specifications

Interface Type	QBH
Maximum Carrying Power	3000W
Collimation Focal	50mm
Length Focusing	150mm
Focal Length Clear	14mm
Aperture Swing	0-15mm (single wire feeding 6mm , double wire feeding 8mm, weld cleaning 15mm)
Amplitude Swing	0-500Hz
Frequency Swing Mode	● —
Weight of the whole torch	0.926kg

Note: The product of swing amplitude and swing frequency shall not exceed 15*150

TRM water-cooled handheld laser welding

Standard Configuration

- 1. G3 Laser Welding Torch;
- 2. Galvanometer motor driver;
- 3. Galvanometer motor driver wiring harness.

The only way to be successful
in this booming laser market
is to choose a partner
who is **long-term vision**
and strong !

TRM is the ONE !
