

- SPEEDTEC GEN 4 — YOUR EXCLUSIVE PREVIEW -

You're getting exclusive **early access** to the **new SPEEDTEC GEN 4** - before its public launch. This head start gives you more time to prepare, build market anticipation, engage customers, and create new business opportunities.

NEW *Be ready to deliver a better welding experience.*

K14462-1: POWER FEED ®52 | K14464-1: POWER FEED ®56

A robust Power Feed with a **new Global User Interface** helps make navigation **more intuitive** and **setup faster.** A precision wire-feeding system delivers maximum arc stability and consistent, repeatable welding performance.

NEW *Bring your customers next-generation performance.*

K14457-1: SPEEDTEC® 400S | K14458-1: SPEEDTEC® 500S | K14461-1: SPEEDTEC® 350C

The new SiC power platform delivers faster response, advanced arc control, and **future-ready technology** — with 91% power efficiency in a design that is **15 kg lighter** than the 3rd Generation.

NEW *Offer more reliability with less maintenance.*

K14469-1: COOL ARC® 60S

A **simplified design**, integrated filtration, and improved control logic help increase reliability and make servicing easier.

NEW *Be ready for demanding applications.*

K14479-1: 4 WHEEL CART GEN4

The new Heavy-Duty Undercarriage adds even greater **durability** and **mobility**.
